MAP INFORMATION

The soil surveys that comprise your AOI were mapped at 1:20,000.

Warning: Soil Map may not be valid at this scale.

Enlargement of maps beyond the scale of mapping can cause misunderstanding of the detail of mapping and accuracy of soil line placement. The maps do not show the small areas of contrasting soils that could have been shown at a more detailed scale.

Please rely on the bar scale on each map sheet for map measurements.

Source of Map: Natural Resources Conservation Service

Web Soil Survey URL:

Coordinate System: Web Mercator (EPSG:3857)

Maps from the Web Soil Survey are based on the Web Mercator projection, which preserves direction and shape but distorts distance and area. A projection that preserves area, such as the Albers equal-area conic projection, should be used if more accurate calculations of distance or area are required.

This product is generated from the USDA-NRCS certified data as of the version date(s) listed below.

Soil Survey Area: Florence County, South Carolina

Survey Area Data: Version 22, Sep 16, 2019

Soil Survey Area: Williamsburg County, South Carolina

Survey Area Data: Version 18, Sep 16, 2019

Your area of interest (AOI) includes more than one soil survey area. These survey areas may have been mapped at different scales, with a different land use in mind, at different times, or at different levels of detail. This may result in map unit symbols, soil properties, and interpretations that do not completely agree across soil survey area boundaries.

Soil map units are labeled (as space allows) for map scales 1:50,000 or larger.

Date(s) aerial images were photographed: Oct 29, 2015—Dec 15, 2017

MAP LEGEND

MAP INFORMATION

The orthophoto or other base map on which the soil lines were compiled and digitized probably differs from the background imagery displayed on these maps. As a result, some minor shifting of map unit boundaries may be evident.

Map Unit Legend

Map Unit Symbol	Map Unit Name	Acres in AOI	Percent of AOI
Cn	Chipleay loamy sand, dark surface	14.6	21.5%
On	Olanta loamy sand	10.3	15.3%
Pa	Pantego loam	4.5	6.6%
Wn	Wehadkee and Johnston soils, frequently flooded	1.1	1.6%
Subtotals for Soil Survey Area		30.4	45.0%
Totals for Area of Interest		67.7	100.0%

Map Unit Symbol	Map Unit Name	Acres in AOI	Percent of AOI
FoA	Foreston fine sand, 0 to 2 percent slopes	28.6	42.3%
Px	Paxville fine sandy loam	8.6	12.7%
Subtotals for Soil Survey Area		37.2	55.0%
Totals for Area of Interest		67.7	100.0%
